Cleaning a mini BBW sex doll is straightforward yet essential for hygiene. After use, it is recommended to rinse the doll with warm water and a mild, non-abrasive soap. Users should avoid using any harsh chemicals, as they can damage the material. Employing a soft cloth or sponge, gently scrub the doll's surface, paying particular attention to any crevices. Once cleaned, thoroughly rinse the doll to remove any soap residue and allow it to air dry completely before storing it. It's also advisable to keep the doll away from direct sunlight during the drying process to prevent discoloration.

Storage Recommendations

Proper storage of mini BBW sex dolls is vital for maintaining their quality. Users should store their dolls in a cool, dry place, ideally in a dedicated storage bag or box to protect them from dust and potential damage.
